Dotonbori / OSAKA

Kobe

For its trade-oriented economy from old times, the port town is also famous for trendy appeals blended sophisticatedly with things Western.

Rokko Cable Car / HYOGO

Kyukoryuchi Street / HYOGO

For more than 1000 years, the city flourished as the ancient capital of Japan. You will find, here and there, Japanese unique aesthetics.

Kyoto

Being an eighth-century capital full of historical and romantic elements, the city preserves many world-class Buddhist buildings and other cultural assets.

Nara

Features of railways in Japan

- To board trains, you need to buy a paper ticket or an IC card with a sufficient balance of cash value added in advance.
- On some limited express trains, you must have a limited express ticket in addition to the regular boarding ticket.
- On some limited express trains, all seats are reserved. The seat number and car number are noted on the reserved seat ticket.

About IC cards

By adding enough cash value to the card for your rides in advance, you can ride trains, subways, buses, and certain other means of transport with the IC card. It is very convenient, because you simply pass it over the IC card reader when boarding and exiting.

1 Buy a ticket (boarding ticket) or an IC card

There are two ways to buy tickets or IC cards: **purchase from station staff at the window, or purchase using the ticket vending machines.**

How to use the ticket vending machines

Buying a ticket

1. Check the fare to the destination station on the fare schedule posted above the vending machines.
2. Put enough cash for this fare into the machine, and push the button indicating the fare to the destination. Don't forget to take any change for your payment.

Buying an IC card (In case of ICOCA)

1. Messages will appear in English if you push the "English" button on the screen.
 2. Push "IC card purchase" on the screen.
 3. Insert 2,000 yen in cash. There is a deposit charge of 500 yen for the card. You can use the balance of 1,500 yen as e-money.
- * The deposit (500 yen) is returned when the card is returned.

Going through the ticket gate

In almost all stations, the ticket gates are automatic. You can go through them by inserting the paper ticket into the slot or passing the IC card over the reader.

How to add value to your IC card (using a machine)

1. Insert your card into the card holder on the upper right part of the machine.
2. Select the desired additional amount of value from the amounts displayed on the screen.
3. Insert cash for the amount you selected.
4. Take the card with the amount added.

The procedure may differ with the machine. Please ask the staff if you have any problems.

2 Go to the right platform for the train you want to ride

On the train information panel, etc., check the number of the platform for your train and the number of the boarding door, and stand in line at the corresponding place. When the train arrives, let all of the people exiting go out first, and then board in single file, in the same order as the line.

point Transfer Trivia: Station Names

Stations with similar names may actually be far apart, and there are stations with different names that are within walking distance of each other.

point Types of trains

Japanese trains have different designations depending on the railway company. They include "limited express," "rapid," and "express." In addition, even trains going in the same direction may stop at different stations. In the case of some limited express trains, you must pay an extra charge in addition to the regular fare. If you have any doubts, please check with the station staff.

How to use BUS

Features of Japanese buses

- To board a bus, you must have cash, a ticket, or an IC card. (IC cards cannot be used on some bus lines.)
- Do not attempt to pay the bus fare with big-denomination bills (5,000 or 10,000 yen). Some buses do not give change for fare payments. You can pay more smoothly if you prepare sufficient small change in advance.
- The fare schedule differs with the area and bus company. Some apply a uniform fare, and others, a zone-based fare. Similarly, passengers pay when boarding in some cases and when exiting in others.
- There are generally different service schedules for weekdays, Saturdays, and holidays. Make sure that you are not looking at the wrong schedule for the day in question.

1 Points when boarding buses

In bus boarding areas, the boarding spot (bus stop) varies with the destination. The bus line number is displayed above the driver's seat and on the side of the bus. Make sure that the bus you are boarding will go to your destination. One door is used only for boarding, and the other, only for exiting. The location (front or rear) depends on the bus.

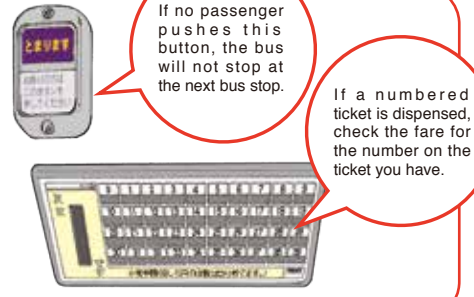

Depending on the bus, the passengers pay either when boarding or when exiting. If a numbered ticket is dispensed when you board, take it. If you plan to pay the fare with an IC card, pass it over the reader when you board. If you pay with cash, first put the cash into the fare box and then the numbered ticket.

2 Points when exiting buses

When your bus stop is next, notify the driver of your intention to exit by pushing the exit button by your seat or on a railing. If passengers pay when they exit, check the fare for the number on the ticket you received when boarding, and prepare the amount of cash to pay it. When exiting, put the cash and numbered ticket into the fare box. If you are paying by IC card, hold it over the reader. Get off the bus slowly in order, and keep your place in the line of passengers waiting to exit.

How to use Taxi

Features of taxicabs in Japan

- Cash and credit cards are accepted for payment of the fare. Some credit cards may not be accepted by some companies. Please check with the driver when boarding.
- There is a flat fare for a ride up to a certain distance (e.g., 640 yen for the first 2 kilometers). You must pay this fare even if you ride for a shorter distance.
- In Japan, you do not have to tip the driver.

1 Points when boarding taxicabs

Many taxicabs are lined up waiting for customers in the vicinity of stations and by hotels, etc. You may also hail a taxicab going down the street. In Japan, taxicabs come in different automobile models and colors. They can be spotted by the light on the roof. If the light is on, it means the taxicab is empty.

The driver operates the taxicab doors, which open and close automatically. Normally, the passenger sits on the left side of the back seat. If there are many passengers, one may sit in the front seat, next to the driver. The door for the front seat is opened by hand.

2 Points when exiting taxicabs

The fare is indicated on the meter. Once you pay it by cash or credit card, the door on the left side will automatically open. Do not open the door on the right side, from which it would be dangerous to exit. Get off the taxicab slowly and carefully. Before exiting, make sure you do not forget anything.

Learn Japanese etiquette!

In public transport facilities

Avoid talking on a mobile phone or conversing in a loud voice on trains or buses.

Restaurants

In buffet service, take no more food than you can eat.

In Japan, you do not have to tip. It is not customary either for wait staff to accept tips.

Hot springs and public baths

Wash your whole body off before getting into the bath.

Do not put your towel into the water in the bath.

Restrooms

Do not get up on the toilet seat.

After using toilet paper, flush it down the toilet. Throw any other rubbish into the bin in the restroom.

Names and marks for restrooms

In Japan, the word used for restrooms may change, depending on the location and environment.

The mark on signs indicating restrooms is generally as shown at left, but there are other types of marks as well.

There are also other notations for "restroom."

When a disaster strikes

Speak to Japanese

Talk to Japanese around you by using this support tool in case of a disaster.
By preparing pen and paper, you will be able to have smoother communication.

MUIC Kansai

Opened 22nd Feb. 2021

New Combination of Tourism and Innovation

MUIC Kansai is an innovation hub to provide new connections with companies and people involved in tourism and to solve various problems.
We will show "new normal" in tourism from Kansai region by innovation of traditional tourism and startups.

1F Co-working Space / Event Space

2F Meeting Room / Private Office

<https://www.muic-kansai.jp/en/>

Traveling in the New Normal

Enjoy traveling while avoiding
transmission risks

Don't forget to check the
safety protocols for the
destination you plan to visit.

Wear a face mask to
protect you and
people around you.

Refrain from conversation
in public transport.

Throughout your travels,
always remember
to wash your hands.

Skip places when they're
crowded. Visit later to
enjoy without the crowds.

Smile and nod rather
than shaking hands.

Enjoy the food and drink
more with less talk.

Practice social distancing
for your own peace of mind.

Give yourself a boost
with fresh air
from outside.

Be a smart traveler.
Begin the day with
a health check.

Select your souvenirs
with your eyes,
not your hands.

Thank you for your consideration. Have a safe trip.
